

PROGRAM GUIDE

Dentistry

Study oral health, dental procedures, and patient care.

1-Week

Grades 9–12

Summer 2027

Program overview

Outset's Dentistry Program offers students an immersive introduction to the patient-focused world of oral health care. Throughout the week, participants explore what draws professionals to dentistry: diagnosing and treating dental conditions, performing preventive care, and helping patients of all ages.

Students will gain an understanding of not only what dentists do, but why this path requires precision, critical thinking, and compassion.

Alongside this broader exploration, students take part in hands-on simulation labs and expert-led sessions that introduce the technical skills and training milestones involved in the field.

Combined with Outset's Path to Dentistry curriculum, which builds in training on core professional competencies like teamwork, communication, and ethics, the program helps students gain clarity about the path ahead and whether dentistry fits their interests and strengths. Participants leave with new confidence and a clearer sense of where they might want to go next.

Hands-on simulations

Students get a firsthand look at what dentists do, using dental-school-level tools and models under guided supervision. Activities vary by campus and week, but examples of activities may include:

Tooth Filling

Practice filling cavities on dental models, building precision and technique.

Mouthguard Casting

Create custom mouthguards, learning molding and fitting skills used in preventive care.

Oral Exams

Conduct oral examinations to identify dental issues and build diagnostic skills.

Tooth Carving

Refine dexterity by carving teeth, practicing the detail essential for dental work.

Important Note: Specific activities vary by campus, program week, and instructors.

Lectures and Q&A with clinicians

Students attend sessions led by healthcare professionals, including dentists and specialists from other fields, who share firsthand perspectives on healthcare careers.

Example topics:

What a dentist actually does day to day

How healthcare professionals choose their path

Training milestones, from college to dental school and beyond

Real stories from the dental clinic

Student-driven Q&A about careers, school, challenges, and lifestyle

These sessions help students better understand whether a career in dentistry could be a good long-term fit for them.

Faculty & instructors

We hire dental faculty, instructors, and practicing dentists to lead our sessions and share career insights. These teachers are finalized a few weeks before your program.

Program leadership

Our leadership team combines experience in health-professions education and student programming to create a hands-on, inspiring experience for future healthcare leaders.

Meet our team

Path to Dentistry

Every Dentistry student takes Outset's "Path to Dentistry" curriculum. Designed by pre-dental advisors, it maps the path to becoming a dentist and builds in training on core professional competencies like teamwork, communication, and ethics.

Map Your Dental Journey

See the full timeline and financial picture.

Plan Your Courses

Know what classes to take and in what order.

Pick the Perfect College

Find the school that sets you up for dentistry success.

Tackle Pre-Dental Challenges

Learn how to handle the toughest college hurdles.

Ace Hard Classes

Master strategies for challenging pre-dental courses.

Gap Year Options

Weigh pros and cons of a gap year before dental school.

Conquer the DAT

What it is, why it matters, and prep tips.

Dental School Applications

Learn the process and how to stand out.

Hear what students take away from our curriculum and sessions.

A day at Outset

[Watch video](#)

Below is an **example** of what a student's day at Outset might look like. Each summer we tailor activities to each campus, blending labs, workshops, and evening events that bring the program to life.

8:00 – 8:45 AM	Grab a healthy breakfast at the on-campus dining halls with other students
9:00 – 9:45 AM	Kick off the day mapping your path, from choosing the right school to preparing for the DAT
10:00 – 10:45 AM	Get a look at your education path ahead, from costs and timelines to what to expect during life as a dental student
11:00 – 11:45 AM	Discover smart strategies to crush tough classes, balance it all, and stand out when it counts
12:00 – 2:30 PM	Enjoy lunch with your cohort at the dining halls or out, then join staff-led games, sports, and activities around campus
2:30 – 4:30 PM	Practice hands-on clinical skills in a simulation lab with dentists and healthcare professionals
4:30 – 5:30 PM	Hear from dentists and guest speakers about healthcare in action
6:00 – 7:00 PM	Refuel and connect with new friends over dinner at a local restaurant
7:30 – 9:30 PM	Join our evening activity led by staff: movie nights, bowling, local excursions, and more!
9:30 – 11:00 PM	Games, shower, and relax in your campus dorm before lights out at 10:30 or 11:00 PM

Is it the right fit?

This week is designed to help your student find out whether a specialty fits. Realizing it isn't the right one is a useful answer too.

Are there grade limitations for Dentistry?

No. The Dentistry program is open to rising 9th–12th graders.

What kind of student is a good fit for Dentistry?

Students who are curious, compassionate, and attentive to detail, with a strong interest in oral health and patient care. We look for applicants who show critical thinking, problem-solving skills, and enthusiasm for hands-on learning.

Will more dates or campuses open?

We may add dates and campuses for Summer 2027. If you don't see the option you want, apply and check with our Admissions Team for the latest availability.

Can I switch specialties later?

You can switch programs up to 2 months before your start date if space is still available in another program on your campus. Space is not guaranteed, so please contact our Admissions Team ASAP if you have this request.

Can I do back-to-back programs in different specialties?

Yes. Back-to-back programs are a great way to meet more peers, explore other specialties, and reinforce core learning. Note that if you stay on the same campus, activities may repeat and you will take the Path to Dentistry course again with your new week's cohort.

Safety and supervision

Student safety and well-being guide every aspect of our program design. Each campus is staffed by a trained, professional team who live alongside students and provide 24/7 supervision.

8:1

student-to-staff ratio at most campuses

24/7

staff presence in the residence halls

All

staff background-checked and trained by Outset

Supervised on and off campus

Staff live in the same residence halls as students. No student, regardless of age, may be off campus or in a restricted area without supervision. Host campuses are typically monitored by campus security as well.

Experienced leadership at every campus

Each campus is led by a dedicated Camp Director with years of experience running youth programs. Residential counselors are typically college students who know the campus well.

Health and medication

Staff check on students' physical health and emotional wellbeing throughout the week. Medications are declared in advance, kept secure, and given at the correct time daily.

If something goes wrong

Parents are notified of concerning symptoms. In an emergency, staff accompany your student to the nearest medical center and stay until a parent or guardian arrives.

Cost and logistics

[See all FAQs](#)

\$2,995

Tuition at UNC Chapel Hill

\$3,195

UCLA

What does tuition include?

24/7 staff, dorms, meals, 20+ hours of academics, speakers, evening activities, and activity transport. Travel to and from campus is not included.

Is there financial aid?

Yes. If you need financial aid, please indicate this on your online application and fill out the aid information. We are not able to guarantee aid, but we do take every aid request seriously.

What are rooms and housing like?

Outset partners with college residence halls. Rooms are shared with 1–2 students of the same gender, with shared bathrooms. Single rooms are available for an additional fee; please check with our team for up-to-date cost and availability.

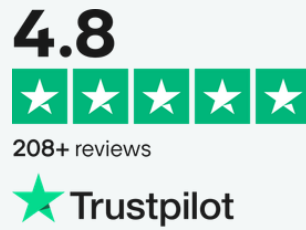

Is there a deadline? How do I apply?

There is no deadline. We have rolling admissions and a simple 4-step admissions process. Apply online, and you'll hear from us within 2 business days.
